Door handing

How to determine handing of a door

Handing of all doors is determined from the exterior of the room's entrance.

- If the hinge is on the left side of the door, the door is "left hand" (LH)
- If the hinge is on the right side of the door, the door is "right hand" (RH)
- To order a handed product, please specify LH or RH
- To order a handleset, handing is still determined from the exterior of the door
- We will use that information to determine the handing for the inside of the door
