

CENTURY

CENTURY

20th Anniversary Edition

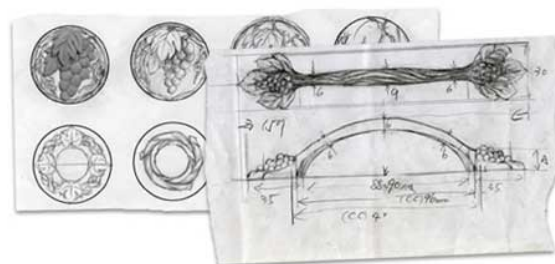

The Finishing Touch

Century America, L.L.C., is honored to celebrate 20 years in business. Our philosophy, from the beginning, has been to design and create exquisite decorative cabinet hardware to adorn the cabinets of your home. Our commitment to excellence and outstanding customer service has not waived. We understand your need to have your purchase order fulfilled, when you need it and we continue to deliver at an impressive 99.3% fill rate.

From a simple concept drawn on a napkin, or an inspiration from the creative minds of our brilliant designers, Century continues to forge new horizons in cabinet hardware designs and finishes. Each piece is skillfully handcrafted using supreme, select materials and finishes. Century's collections are designed to celebrate your individuality. Whether your inspiration comes from Olde World Italian décor or an upscale metropolis, you're sure to find the perfect accent among Century's assortment of decorative knobs and pulls for your kitchen and bathroom. Highlight warm wood finishes with oil rubbed bronze or accent a modern motif with stainless steel or satin nickel.

We thank you for your continued support and business. We will look forward to many more years of successful business with you.

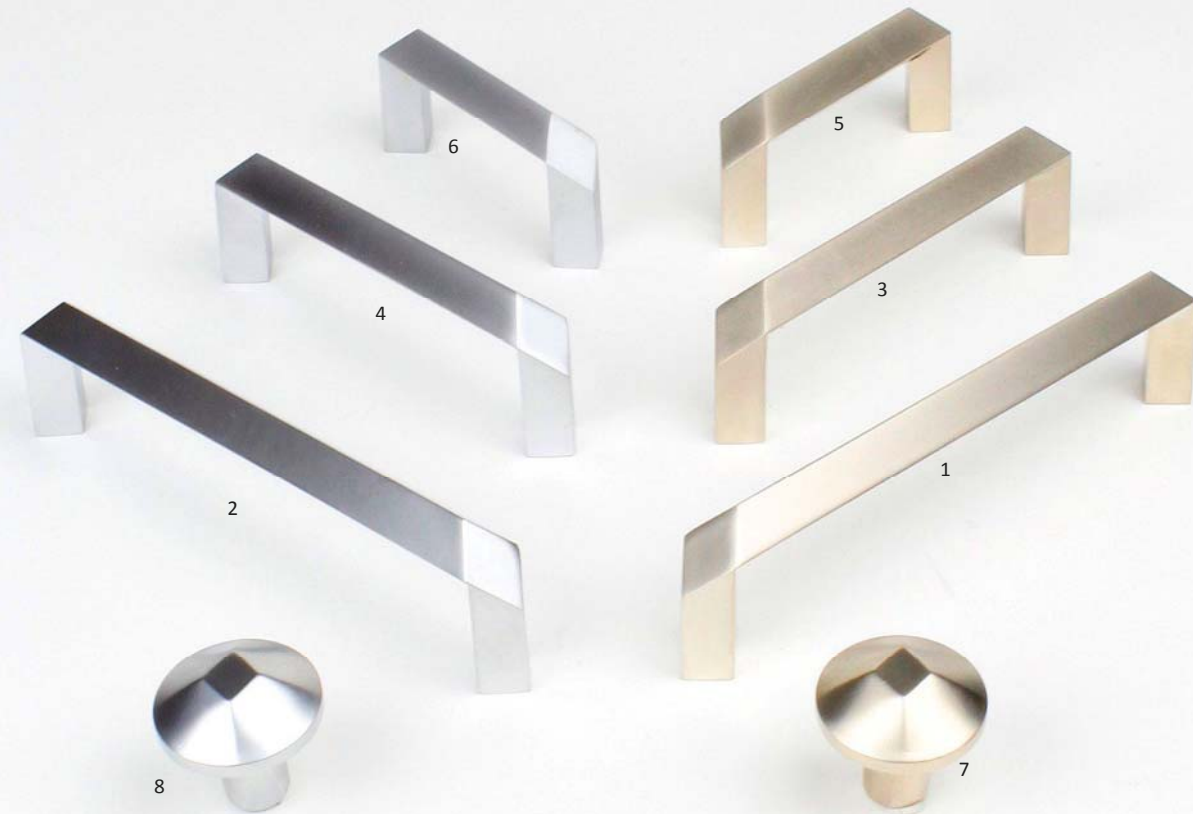

Century Showroom Display

Enhance your showroom by displaying Century's design collections. Each tower will hold up-to 16 collection boards, of your choice. Century's sleek display is designed to take-up very little floor space in your showroom. Our European style carousel measures only 16" X 16" X 70" and ships in an easy-to-assemble flat pack for normal ground service.

For added convenience, each display board is pre-assembled.

(The Iris Collection is equivalent to two display boards and the entire Stainless Steel Collection is equivalent to three display boards. Century also offers a nice assortment of the Stainless Steel pieces on a single-size display board.)
